

How watertight is your data strategy? Have you considered every possible event that could disrupt your digital transformation?

From your hardware infrastructure to your software, each facet may have varying lifecycles that can either compete, compliment or damage your operations. Modernisation rarely happens all at once which is why roll outs must be tested to destruction right through from legacy to wish list, from change-averse technophobe to pipe dream technophile.

**TUESDAY OCTOBER 16TH 2018**  
Dell Technologies, 1 Creechurch Place,  
Creechurch Lane, London, EC3A 5AY

Find out why partnering with the most advanced purpose-built backup platforms in the market enables us to offer you enterprise-class protection against advanced threats, cybercriminals, spam, malware and potential data loss.

Join us on 16th October for complimentary brunch, drinks and for your chance to win The Lockdown Challenge with Dell!

# The Lockdown Challenge with Dell
